

VFW Department of Missouri Webmail

The Dept. of MO webmail is the official method of electronic communications within the Dept. of MO, VFW. Each Dept. Line Officer and all Chairpersons have webmail addresses. Each District Commander, Adjutant, Quartermaster and Veterans Service Information Officer have an account and each Post an account.

The District accounts are:

Commander – cdrdist8@movfw.org

Adjutant - adjdist8@movfw.org

Quartermaster – qmdist8@movfw.org

Veterans Service Information Officer – vsiodist8@movfw.org

Adjust the *number* following dist. to reflect the proper district

The Post account example for email is: [post\(post #\)@movfw.org](mailto:post(post #)@movfw.org)

You can send e-mails to any of the above addresses after using the proper dist./post number to contact any of the district or post officers.

Our Webmail group will no longer be changing the passwords to a “default” password, it takes too much time to reset over 350 email addresses. So please see your predecessors for the current password and then after logging in you will do the following steps to change the password:

Access to webmail is through the State website, www.movfw.org. Go to the top task bar and click on LOGIN and then click on Webmail. Scroll down under Webmail and click on Change Email Password. The Plesk web host screen will appear. Enter your email address and the current password. The Mail screen will appear. On the left tab, click on My Profile. This will bring you to My Profile Screen. Under the Plesk Preferences you will see the email address and an area to enter the new password which you will choose. A few lines down, you are asked to Confirm the Password. Click on OK.

After the above steps are completed, go back to the WebMail login screen, and go to Check Your Email. Enter your email address and password on the next screen. You should be in your emails. If you have any issues, please contact
Randy Craig at 573-212-3777 or Ken Allison at 636-448-3061.

*******PLEASE NOTE: Do NOT set up email forwarding to Yahoo, AOL or Verizon.net email addresses from the email accounts that we provide. We are getting blamed for ALL junk mail that is being forwarded to those accounts and Yahoo, AOL and Verizon.net are blocking our server as a result. We are continually trying to resolve this.**
